

SUNSHINE FACTORY - Used Gear Sales

Located at Skydive City

**4303 Skydive Lane
Zephyrhills, FL 33540
800-266-1883 – www.sunshine-factory.com**

Information About Selling Your Used Gear:

There is a non-refundable fee of \$15 per **gear item**. A **gear item** is defined as a container, reserve, main or cypress. The fee applies to each one of these items; therefore if you have a complete set of gear with a cypress the cost will be \$60.00. All items need to be sent to Sunshine Factory, the fee paid and in our possession before listing.

Our commission for selling your gear is 20%. We offer the purchaser 20 days to have the gear, look it over, jump it and return it in the same condition for any reason. We hold your payment until that 20 days is up.

Part of the fee includes a Website listing for 32 weeks listed under our "used gear" section, this listing will include a detailed description, price and a picture of all your gear. We will be informing potential buyers of your equipment on the phone, through our dealer network and through the drop zone customers at Skydive City. After the 32 weeks we either ship the gear back at your expense or you can pay another listing fee of \$10 per each **gear item**.

The other part of the fee includes equipment/gear inspections, performed here by a Master Rigger. This needs to be done because, in a sense, Sunshine Factory is endorsing the condition of your equipment and putting our reputation behind it. If there is any work that the Rigger recommends being done before the gear is sold, you are responsible for paying for this before we are able to list your equipment. We will only sell equipment in top condition. Part of the inspection process is that your reserve will be unpacked so the Rigger can inspect the condition of the reserve also. We notify the purchaser of this and that they are responsible for getting the reserve repacked. If you decide to take your rig back before the 32 weeks, it will be returned unpacked and you are responsible for the repack. Of course, after 32 weeks, it is out of date anyway.

It will take approximately 2 - 3 weeks to process your equipment and to list it onto the auction. The 32 weeks starts from the first time that your gear is listed on our website, not the date The Sunshine Factory receives your gear.
